

## **Living@Allensmore for Seasonal Workers**

Written by a seasonal worker working at Allensmore

Allensmore is a small village, 6 miles from Hereford City. All the students who work at Allensmore live onsite, in caravans provided by Allensmore. There are 13 caravans here, each one will accommodate 4 people and consists of 2 bedrooms, a bathroom, a kitchen and a living room. The caravans also have the following: a fridge, an oven, a microwave, a TV a gas heater and other cooking utensils. There are 3 washing machines and a tumble dryer near the caravans which the students are allowed to use. There is an open piece of grass and a fireplace next to the caravans where the students play football and spend free time.

There are 2 pubs and a garage with a small shop 5 minutes from the nursery. Everyday the minibus will take students to the local supermarket for them to do their shopping and on Saturdays the minibus also takes students into town. From time to time, day trips out will be organised allowing students the chance to see other parts of England.
