

Allen'smore

Main Season Catalogue 2024

Alenmore Nurseries 2024 Catalogue

Why Alenmore?

A growing year

January to March sees us start our year delivering the Helleborus Gold Collection® into stores along with a range of early season crops including Primulas, early perennials and carefully selected Mediterranean plants. We are also welcoming back our regular seasonal staff and increasing volume in our potting operation. Planting Roses also starts in this early part of the season.

As we go into the April - June period potting is still at its peak and we are also heading into our peak dispatch season with Lupins, Digitalis, Delphiniums, Geum and a further broad range of perennials and bedding lines. Our technical staff are closely monitoring nutrient and quality issues through this period and we are working at our peak staff levels.

There is no relaxing as we head into July - September when Dahlia and Echinacea feature along with even more beautiful flowering perennials and pot bedding. We are also busy budding our field grown Rose crop. It is through this period that we aim to recruit our apprentices and carry out some of our training and development activities.

October to December is a particularly busy time of year lifting Roses, potting next spring's perennials and making seasonal wreaths. It's the time for maintenance across the sites. We also start delivery of our Helleborus Gold Collection®, bringing a full year of growing around again as we look forward to the spring.

New product development..

Ever wondered where all the new plants come from? We work with breeders, breeder's agents and young plant suppliers from all over the world, trialling small numbers of potential new plant introductions. Breeding in perennial plants, shrubs, Roses and climbers is resulting in garden plants being more consistent, healthy and reliable. Breeding these types of plants takes over 8 years for a potential new plant to be selected. At this point the plants are included in our dedicated and secure trials area where they are grown through to finished plants by our trials officer Alice Button and then included in regular new plant evaluations judged by members of the sales team and nursery staff. Hundreds of potential new plants are included in our trials every year but only a very limited number make it through to being included in our range. If you are visiting the nursery, do make sure you spend some time to look through our trials as we are always interested in your opinion.

Alice and Kevin

Crop Champions...

Learning more about larger crops, tackling challenges with crops that have the potential to develop further and improving our knowledge of new crops are all areas that our Crop Champions have taken on. Supported by our Production Director Kevin Campbell, our Crop Champions are all members of the growing team who are improving the business knowledge and understanding of some of our most valuable crops, improving quality and consistency across all of our production.

Crop Champions

Perennial Partner

For workers' rights. For better business.

Contents

Our commitment to the environment..

Our product is green by its very nature. It goes on through its life to make a positive environmental impact and it improves the mental health and well-being of the gardening public.

We owe it to ourselves, the industry and our customers to make every effort to grow and supply our plants as sustainably as possible. We hold LEAF (Linking the Environment and Farming) accreditation which requires holders to demonstrate their on-going commitments to the environment. We were very proud to be awarded Gold in the Sustainability Category at the International Grower of the Year Awards at IPM in Essen back in January.

We recycle the water we use for irrigation and use natural predators to control pests. Reducing and eliminating peat in our growing media is central to our environmental policies. We have trialled Peat Free composts in well over 500 varieties in 2022 and 2023. In 2023 we reduced peat to just 25% of our growing media for perennials and shrubs, and our Roses and all of our variety trials are peat free. We are working with the RHS, a diverse group of other growers and our suppliers to ensure we have reliable, consistent and sustainable peat free substrates for the future. It is crucial that they perform for us, our customers and all the gardeners who buy our products. We expect to be growing in completely peat free substrates by 2026 at the latest. We are exploring alternatives to single use plastic such as pots and labels.

Our commitment to customers...

We work hard to provide every one of our customers with both quality plants and great customer service and are proud to have a fantastic sales team who are dedicated to achieve this.

The sales team walk the crops at least once a week to ensure they know exactly how the plants are progressing so we can confidently advise you of the best delivery dates.

Availability lists are emailed to our customers on a weekly basis and all photographs are updated and are not generic library ones! If you would like to be added to our weekly WhatsApp group, we can send you lots of nursery photos hot off the press!

We encourage customers to visit our nursery sites here in Herefordshire where you can see for yourself the care and attention that we lavish on every plant we sell. Just contact our sales office and we will be happy to make the arrangements. Our two key visiting periods are, February to select from our extensive range of Italian specimen plants and in July when we have in excess of 100 acres of perennials and pot bedding.

The Sales team at the HTA show

We also attend the HTA Show in June at Stoneleigh and Four Oaks Trade Show in September at Macclesfield.

We are proud to be holding the majority of our home-grown plant prices for next season.

Thank you for your business and choosing Allensmore as your plant supplier.

We wish you a successful 2024

Plants for Perennial

After a highly successful inaugural year, Allensmore is thrilled to announce the launch of the second year and variety of Plants for Perennial. This exciting initiative, spearheaded by Allensmore's Managing Director, Mark Taylor and a Perennial Trustee, Richard Lawton, aims to provide continuous support to people within the horticultural industry, including those who work in garden centres. The Plants for Perennial varieties not only offer a stunning variety of plants but also embody a feel-good factor by supporting the work Perennial does.

Perennial is the only UK charity that supports people working within the horticultural industry along with their families. The services offered by the charity are far reaching and include health and wellbeing to financial support with a friendly and experienced team that is there to support challenges that can become overwhelming.

Last year, Perennial provided more help than ever delivering some 24,000 preventive services and activities with 1,895 people and their families receiving personal support.

Allensmore Nurseries are once again working closely with three other local nurseries and have selected Dianthus Pink

Celebration and Fuchsia Waltz Jubilteen as the Plants for Perennial and a contribution will be made to the charity for every plant sold. Please help to support this very worthwhile charity, as 25p for every plant sold will be donated.

Terms & Conditions

1. Allensmore accept orders only on the basis that these terms and conditions apply to the contract and cannot be varied except in writing and signed by one of the Allensmore directors.
2. Ownership of goods supplied by Allensmore will not pass to the customer until the goods have been paid for in full. In the meantime, the customer must keep the goods identifiable as belonging to Allensmore and must allow or obtain access for Allensmore to retake the goods if they are not paid for within 30 days of invoice.
3. Goods supplied by Allensmore will be at the risk of the customer from the moment of loading (if being taken from Allensmore) or off-loading (if being delivered by Allensmore).
4. Any complaint about quality, short-delivery or any other matter must be notified to Allensmore in writing and in reasonable detail within 24 hours of risk passing or the complaint will be deemed to have been waived.
5. Allensmore's liability is limited to the contract price for the goods. Any other liability is excluded to the fullest extent permitted by English law.
6. Allensmore are not liable for any delay in supplying goods unless the delay causes the goods to deteriorate so that they are not of merchantable quality.
7. Allensmore reserve the right :
 - a. To charge interest from day to day at 4% over their own bankers' base rate from time to time on any sum due from a customer which has not been paid within 30 days of invoice.
 - b. To increase the contract price to cover any movement in rates of exchange between currencies which is adverse to Allensmore and which occurs before Allensmore receive payment from the customer; and
 - c. To withdraw any discount which has been given on an invoice which is not paid in full within 30 days of issue.
8. All prices correct at the time of print and maybe subject to amendment due to fuel increases, market influences or any other factors outside of our control.
