Christmas Catalogue 2024

HANDPICKED *for perfection*

Allensmore are delighted to be able to offer a brand-new collection of wreaths, a small range of planted containers along with pot grown Christmas Trees to complete our range for Christmas 2024.

We have continued to follow and research the market trends and worked closely with our suppliers to produce bespoke components and ribbons that are tailored for each wreath design.

Having just refreshed the top-selling lines and then introduced some brand-new design's we hope there is something for everyone.

THE STORY OF THE ALLENSMORE WREATH ...

- We have been creating fresh foliage wreaths since 2006 and we use the highest quality Noble Fir from our plantation partners which gets delivered to the Tram Inn site multiple times a week ensuring it's as fresh as possible.
- Our highly experienced team cut the fluffy outer branches from the main stem and make small bunches of foliage, these then get clamped onto a plastic-coated metal frame. We ensure that each bunch of foliage overlaps the other to create a beautifully full and fluffy wreath. All parts of the main stem that are not used are chipped on site and collected by our neighbouring farmers to spread on the fields.
- Next the wreath gets moved into the 'dressing room', it is just like Santa's workshop! Each wreath is lovingly hand dressed using our bespoke components and ribbons.
- These beautiful wreaths, once dressed, are taken back into the cooled warehouse and sorted into orders, to make their way to you in our temperature-controlled lorries.

You can't get fresher than that !!

POT GROWN CHRISTMAS TREES

ALL TREES ARE NURTURED CAREFULLY BY HAND IN THEIR POTS TO CREATE A HEALTHY PRODUCT WHICH HAS A STRONG CHANCE OF SURVIVAL IF THE CUSTOMER CHOOSES TO GROW IT ON AFTER CHRISTMAS.

5 KEY REASONS TO BUY POT GROWN TREES

- 1 Our Pot Grown Trees are grown in specialist grow pots in an open field environment. The specially designed pots mean that the core root system of the tree is contained within them when the tree is lifted, giving it a strong chance of survival if the customer chooses to grow it on in the garden after Christmas.
- 2 Unlike cut trees, Pot Grown Trees are still 'living', so if cared for correctly will stay looking fresh and healthy in the home for the duration of the Christmas period.
- 3 The decorative cover pots are not only attractive but also water tight, meaning the customer can keep the tree watered once inside the home.
- 4 If the tree is grown on in the garden after Christmas, it will continue to absorb carbon from the atmosphere, making it a carbon neutral product.
- 5 Smaller sizes can be used as 'table top' decorations for those customers with less space or those wanting something more subtle in the home.

To ensure your customer is fully aware of the benefits of buying a Pot Grown Tree, we attach a special care label to every tree. The label not only shows them how their tree was grown, but also explains the benefits of owning a Needlefresh Pot Grown Tree and how they can plant it out after the festive season. This gives your customer the complete ready to use solution for their Christmas. With the addition of the cover pot the tree is ready to decorate as soon as it reaches the customer's home.

ORDER YOUR POT GROWN TREES IN 3 EASY STEPS

STEP 1: Choose your preferred coloured pot.

STEP 2: Order your quantity. 1 trolley of trees along with our normal minimum delivery term of £400.

STEP 3: Let us know your retail prices and we will pre-price them for you.

Turkish Fir

(Abies Bornmuelleriana)

It has a layered appearance to the branches, which are sturdy, smooth and form a conical structure with deep green needles with a silvery underside.

Height (not inc pot)	80/100cm
Height (inc pot)	100/120cm
Qty	12 pots per shelf 2 shelves per trolley
Pot Size	7.5 litre
Cost	£25.32

Scots Pine

(Pinus Sylvestris)

Scotland's native tree which has a distinctive aroma of a real pine forest, with robust branches of lush glossy green needles with a classic cone shape.

Height (not inc pot)	100/125cm
Height (inc pot)	120/145cm
Qty	11 pots per shelf 2 shelves per trolley
Pot Size	7.5 litre

Premium Pot Grown Trees

Nordman Fir (Abies Nordmanniana)

Coming in a classic shape, the impressive glossy, rich green foliage on tiered branches makes this the perfect tree to hang festive decorations.

	Height (not inc pot)	Height (inc pot)	Qty	Pot Size	Cost
Nordman Fir	80/100cm	100/120cm	12 pots per shelf 2 shelves per trolley	7.5 litre	£25.32
